# The CAR Program

- Purpose:
  - Establishment of an innovative program for law enforcement agencies around the country to receive support through on-site embedded crime analysts as well as additional technical assistance and resources provided remotely to enhance analytical capacity and capability.
- Goal:
  - To more fully integrate sophisticated crime/data analysis practices, products, tools, and information into the daily operations and management of a department's violent crime and property crime reduction efforts.

# The CAR Project Plan

Provide training and technical assistance to approximately 20 law enforcement agencies during the 3-year CAR Program by means of these activities:

- 1. Project kickoff and management**
- 2. Identify and select sites for TTA**
- 3. Provide in-residence and remote (ad hoc) TTA**
- 4. Promote Subject Matter Expert engagement and peer-to-peer learning**
- 5. Coordinate with existing crime analysis associations, services, and resource providers**
- 6. Identify and disseminate products and deliverables**
- 7. Evaluate TTA**
